

AMENDMENTS TO THE CLAIMS

The following listing of claims replaces all prior versions and listing of the claims in the Application.

Claims 1-30 have been canceled.

31. (new) A dialkylamino group-containing acrylic copolymer which is a copolymer of a dialkylaminoethyl (meth)acrylate represented by the formula

wherein R is hydrogen or methyl and R⁰ is C₁-C₄ alkyl; and a reactive monomer represented by the formula

wherein R is hydrogen or methyl, x is an integer from 4-7, and the average value of n is 1-5; wherein in each of the x individual (CR¹R²) moieties independently, R¹ and R² are independently hydrogen or an alkyl group having a carbon number of 1-12; and wherein the n individual [C(=O)(CR¹R²)_x-O] moieties may be identical or different from one another.

32. (new) A polyurethane composition characterized in that the polyol component comprises the dialkylamino group-containing acrylic-based copolymer according to claim 31.
33. (new) The polyurethane composition according to claim 32, wherein the content of said dialkylamino group-containing acrylic-based copolymer is 0.5-10% by weight.

- 34 (new) A spandex filament which comprises the polyurethane composition according to claim 32 or claim 33, wherein the content of said dialkylamino group-contained acrylic-based copolymer is 0.5-10% by weight.
